Today's speaker is Katie Hancock-Cooke.

How Carbon Fee and Dividend Works. To account for the cost of burning fossil fuels, we propose an initial fee, imposed upstream at the mine, well or port of entry. Accounting for the true cost of fossil fuel emissions not only creates a level-playing field for all sources of energy, but also informs consumers of the true cost comparison of various fuels when making purchase decisions.

## Not "Getting" The Hub?

### The Hub

Some have indicated that they are not receiving The Hub.

The email doesn't send the Hub – it just sends a

link to it. Said link just goes to where it lives on the website.

<http://www.oshkoshrotarysouthwest.org/>

If you want to see the Hub, you can just go to the website and click the link there. (anytime ... no need to even log in) No different outcome than clicking the link in the email. (Thanks, Craig)

I have reset everyone email preferences. You have the ability to opt out. ~ Karlene

## 50 Things Every Rotarian Should Know About Rotary

(28<sup>th</sup> in a series)

By Steve Garret

District 5300 Governor 1994-1995

### 28. WORLD COMMUNITY SERVICE

World Community Service is the Rotary program by which a club or district in one country provides humanitarian assistance to a club in another country. Typically the aid goes to a developing community where the Rotary project will help raise the standard of living and the quality of life. The ultimate object of World Community Service is to build goodwill and understanding among peoples of the world.

One important way to find a club in some other part of the world which needs help on a worthy project is to use the WCS Projects Exchange, a list of dozens of worthy activities in developing areas. The exchange list is maintained in the RI Secretariat in Evanston and is readily available upon request. It outlines projects, provides estimated costs and gives names of the appropriate contacts.

Clubs which need assistance, or are seeking another club to help with a humanitarian project, such as building a clinic, school, hospital, community water well, library or other beneficial activity, may register their needs. Clubs seeking a desirable World Community Service project may easily review the list of needs registered in the Projects Exchange. Thus, the exchange provides a practical way to link needs with resources.

Every Rotary club is urged to undertake a new World Community Service project each year. The WCS Projects Exchange list is an excellent tool to find a real need, a project description and cooperating club in a developing area. The job then is to "go to work" to complete the project, and at the same time build bridges of friendship and world understanding.
