50 Things Every Rotarian Should Know About Rotary

(43rd in a series)

By Steve Garret

District 5300 Governor 1994-1995

43. MATCHING GRANTS

Among the programs of The Rotary Foundation are the Matching Grants that assist Rotary clubs and districts in conducting international service projects. Since 1965, more than 3,700 grants have been awarded for projects in about 135 countries with awards of more than \$23 million.

A club or district must contribute an amount at least as large as that requested from The Rotary Foundation with at least half the funds that the Foundation will match coming from a country outside of the country where the project will take place. Grants have been made to improve hospitals, develop school programs, drill water wells, assist the handicapped or persons requiring special medical attention, provide resources for orphanages, create sanitation facilities, distribute food and medical supplies and many other forms of international community service in needy areas of the world. Some grants are for projects in the magnitude of from \$15-50,000, but most are in the range of \$5-10,000.

Matching Grants are not approved to purchase land or build buildings, and they may not be used for programs already underway or completed. Personal participation by Rotarians is required and the benefits should extend beyond the recipients.

The Matching Grants program is a very significant part of The Rotary Foundation and provides an important incentive for clubs to undertake worthwhile international service projects in another part of the world. They certainly foster goodwill and understanding, which is in keeping with the objectives of The Rotary Foundation.
